Distance Nearest Occupied Building:

Type of Incident: Vehicle Accident

Description of Released Contaminant: Diesel Fuel

Volume Spilled:

Ag Related: No

EPA Extremely Hazardous Substance: No

Reported to NRC: No

Cause of Incident:

Tractor trailer rollover accident resulting in the release of an unknown amount of diesel fuel from the saddle tanks.

Risk Evaluation:

of Fatalities:

of Injuries:

Affected Medium:

Potential Environmental Impacts:

Unknown at this time.

Action Taken or Planned:

Environmental contractor dispatched to the site for cleanup.

Wastes Disposal Location: TBD

Agencies Involved:

Notes:

10/7/13 - 14:15 - Spoke with Ryan Campbell of ERTS and Brandyn Ehlis of Wenck (701-471-0593). Accident location is at the northbound on-ramp to I-29 from Hwy 13 west of Wahpeton. Truck rolled on the corner and came to rest approximately 150 feet north of Hwy 13 between the on-ramp and I-29. Estimated 50-70 gallons of diesel fuel and some motor oil (?) was released on the on-ramp slope, and there are pools of standing water at the bottom of the slope. Wenck Associates used sorbent pads to collect the free-phase fuel this date. Wenck is now crafting a workplan to remediate the remaining impacted soil and water. Work plan will be sent to the NDDOT District and NDDoH Fargo office for review and oversight.

Date: 10/7/2013 **Status:** Reviewed - Follow-up Required

Notes:

Final remediation report filed 2/12/2014. Approximately 70 cubic yards of petroleum- contaminated soil was removed from the site on November 25, 2013. The excavation was backfilled. The contaminated soil was taken to American Enterprises, Inc. Land Treatment Facility in West Fargo, N.D. for treatment. Confirmation soil samples from the base of the excavation and one background sample were taken. The analytical results indicate the TPH-DRO contaminant levels (non-detect and 23.7 ppm) were well below the 100 ppm action-level guidelines. To fulfill the NDDOT right-of-way permit, the site will be seeded in the Spring of 2014. No followup required.
